

RICERCA CHIMICA s.n.c.

For over twenty years **RICERCA CHIMICA GROUP** has been producing **Chemical Products, Plants and Equipment** for metal surfaces treatment, especially for stainless steel surfaces.

RICERCA CHIMICA GROUP, International Leader in the field of **Stainless Steel** treatment and holder of many registered patents, is based on a high level **technical and operative structure**, which is made up by two sites of the Group, extending on an area of over 8,000 m².

Thanks to the know-how that has been developed so far, the staff working in the **Research and Development Laboratories** always manage to find out personalized solutions, unique on the market. This is why our scientific and technological équipe has gained a prominent position not only on the national but also on the international scene.

RICERCA CHIMICA GROUP is formed by two different companies: Ricerca Chimica s.n.c., offering the most appropriate solutions to its company-customers, and Inox Service s.r.l., where third-party workings are carried out, such as Pickling and Electropolishing on stainless steel and other metals.

Thanks to the versatility of its **équipement**, the Inox Service staff can perform third-party workings on **products of every size**. Some of the fields that daily apply to Inox Service s.r.l. and that require **every aspect of the chemical treatment on surface** are: Food, Pharmaceutical, Chemical, Petrochemical, Nuclear, Nautical, Mechanical, Textile and Furniture Industry, Carrying Trade and Paper-Mill.

INOX SERVICE s.r.l.

RICERCA CHIMICA GROUP is steadily striving for the development of **up-to-date Technologies**, which guarantee to its national and international customers a significant **cutting in production time**, with **respect for the Environment and the Operator Safety**.

All assistants of Ricerca Chimica Group are marked by an open disposition for the direct dialogue with the customers, ready to give competent and professional answers, always focused on meeting our customers' requirements.

The experience we have been developing for twenty years and the countless solutions daily provided to over 2,000 Customers, represent the strength points with which we address to You, confident that we will support at best the development of Your Business.
